Subject: Comments on CalWater Urban Water Mangement Plan

Kenneth G. Jenkins, Conservation Manager
 California Water Service Company
 2632 West 237th Street
 Torrance, CA 90505

Dear Mr. Jenkins:

Please accept the following comments on CalWater's Urban Water Management Plan.

7.2: Is CalWater making a *commitment* to prepare the plan in 2013? What is the reason CalWater has set 2013 to start this plan rather than earlier? The statement "Regardless whether climate change is manmade or a result of natural climate cycles" ... is misleading. While climate is always the result of natural process, scientists overwhelmingly agree that man's activities have accelerated the rate at which greenhouse gases are emitted, thereby increasing atmospheric temperatures which in turn affects natural process and climate. Other important benefits of proactive climate planning include reducing water use, reducing dependence on imported water and ensuring reliable water supplies, and protecting water quality. Importantly, early planning and action increases options, resiliency and financial readiness.

6/29/2011

7.3, 2nd line: ‘affects’ should be ‘effects’ to water supplies. Are CalWater’s or other water supplier’s infrastructure at risk from sea level rise or other effects? Consider providing a list of (hyperlinked) resources people may consult for more information.

Table 8.1-1- It would be helpful to repeat the heading row on each page for ease of review.

Appendix F: Consider strengthening the landscaping guidelines. Refer to Hermosa’s water efficient ordinance which applies to both large and small landscaped areas.

<http://www.hermosabch.org/departments/cityclerk/code/860.html> including 8.60.070 Standards for Small Landscape Areas, which provide mandatory measures and prohibit invasive plants.

Appendix G: Section 8.7 and others as appropriate: Most cities have adopted water conservation and water-efficient landscaping ordinances, and we appreciate that CalWater has linked city ordinances to the CalWater website. Regarding increasing water conservation, engaging the cities more proactively to coordinate messages educating, advertising or incentivizing increased conservation in line with CalWater programs.

Thank you for the opportunity to review the plan.

MAILED
March 4, 2011

**NOTICE OF INTENT TO ADOPT
AN URBAN WATER MANAGEMENT PLAN
AND
HOLD A PUBLIC MEETING
TO
RECEIVE COMMENTS ON THE PROPOSED PLAN**

**CALIFORNIA WATER SERVICE COMPANY'S
HERMOSA - REDONDO DISTRICT**

California Water Code, Part 2.6 Chapters 1 through 4 (Sections 10610 through 10656), are known and may be cited as the "Urban Water Management Planning Act."

These California Water Code sections require all urban water suppliers that provide water for municipal purposes either directly or indirectly to more than 3,000 customers or supply more than 3,000 acre-feet of water annually to prepare an Urban Water Management Plan as outlined and identified in those sections. This requirement applies to public and privately owned water utilities.

The plan must describe and evaluate sources of supply, reasonable and practical efficient uses, reclamation, and demand management activities. The components of the plan may vary according to an individual community or area's characteristics and its capabilities to efficiently use and conserve water. The plan must address measures for residential, commercial, governmental, and industrial water demand management.

The act requires urban water suppliers to update their Urban Water Management Plans at least once every five years, and to file updated plans with the Department of Water Resources, the California State Library, and any city or county served by the supplier no later than 30 days after adoption.

California Water Service Company (Cal Water) is an investor-owned public utility providing water service throughout California. In addition, Cal Water is regulated by the California Public Utilities Commission (CPUC).

One of Cal Water's service areas is the Hermosa - Redondo District, which is located in Los Angeles County. The Hermosa - Redondo District serves the cities of Hermosa Beach and Redondo Beach and approximately five percent of the City of Torrance.

As a defined urban water supplier, Cal Water is preparing an update to its Urban Water Management Plan that will address the water service conditions in the Hermosa - Redondo District. It is Cal Water's intent to adopt that plan and file that plan as required with the Department of Water Resources, the California State Library, and any city or county within which Cal Water provides service.

A key focus of this UWMP update is the conservation requirement set forth in Senate Bill 7 (SBx7-7) as passed in November 2009. SBx7-7 mandates a statewide 20% reduction in per capita urban water use by 2020. In order to quantify the objectives and identify the means of achieving this mandated demand reduction, Cal Water has prepared a Conservation Master Plan.

Cal Water is in the process of expanding current conservation programs and developing new programs for its 24 districts. Over the next five years, Cal Water conservation program expenditures are likely to increase, due in large measure to recently adopted state policies requiring future reductions in per capita urban water use. These state policies include SBx7-7, as well as recent decisions by the California Public Utilities Commission (CPUC) directing Class A and B water utilities to adopt conservation programs and rate structures designed to achieve reductions in per capita water use, as well as the *Memorandum of Understanding Regarding Urban Water Conservation in California* (MOU), of which Cal Water has been a signatory since 1991.

The Conservation Master Plan for the Hermosa - Redondo District will be presented to the Cities, Counties and public served by Cal Water's Hermosa - Redondo District in conjunction with the UWMP.

Schedule of upcoming actions:

On or about April 1, 2011, a copy of the Proposed Urban Water Management Plan and the Conservation Master Plan will be available for review during normal business hours at the Rancho Dominguez Customer Service Center, 2632 W. 237th Street, Torrance CA 90505.

It is preferred that prior arrangements be made with the district's management for viewing the Proposed Urban Water Management Plan and/or the Conservation Master Plan. These arrangements can be made by calling (310) 257-1400.

As an alternative to reviewing the Proposed Urban Water Management Plan or Conservation Master Plan in Cal Water's Hermosa - Redondo District Customer Service Center, Cal Water will make an electronic copy of the Proposed Urban Water Management Plan available on or about April 1, 2011.

It is Cal Water's intent to place the Hermosa - Redondo UWMP on an FTP site, where City and County officials may access any portion of the plan for review. The site can be accessed at <http://calwater.ftptoday.com> ;

The user name is **cwsftp17** and the password is **Docum3nt!**.

The UWMP will be available at this FTP site on or about April 1, 2011 through June 15, 2011.

Cal Water will receive comments on the proposed UWMP and the Conservation Master Plan from April 1, 2011 through June 15, 2011.

If there are issues with accessing the electronic copy, you may contact Michael Bolzowski at the company's headquarters at 1720 North First Street, San Jose, California 95112-4598, by calling (408) 367-8200, or by email at mbolzowski@calwater.com.

The Public Meeting to receive comments on the Proposed Urban Water Management Plan and the Conservation Master Plan will be held on June 8, 2011, from 3:00 p.m. to 5:00 p.m. in the Rancho Dominguez Customer Service Center Conference Room located at 2632 W. 237th Street, Torrance CA 90505.

If you are unable to attend the scheduled public meeting but want to provide comments regarding the proposed UWMP, you may send your comments in writing via mail to:

Thomas A. Salzano, Water Resource Planning Supervisor
California Water Service Company
1720 North First Street
San Jose, CA 95112-4598

Or by email to him at tsalzano@calwater.com

Comments regarding the Conservation Master Plan for Hermosa - Redondo should be sent to:

Kenneth G. Jenkins, Conservation Manager
California Water Service Company
2632 West 237th Street
Torrance, CA 90505

Or by email at kjenkins@calwater.com

If there were any errors in the address to which notice was sent, please send corrections to Tom Salzano at the above address so that we can update our information.

Also, please share this with others on your staff that may have the need to know.

Los Angeles County Department of Public Works
Dean D. Efstathiou, Acting Director of Public Works
900 S. Fremont Avenue
Alhambra, CA 91803

Dear Mr. Efstathiou,

California Water Service Company (Cal Water) is in the process of preparing an update to the current Urban Water Management Plan (UWMP) for the Hermosa-Redondo District as a part of its 2009 Public Utilities Commission General Rate Case filing. This UWMP will serve as a long term planning document for water supply and can be an important source of information for city and county General Plans.

Cal Water will file the complete updated Plan with the Department of Water Resources in 2010. We are requesting your participation in the updating of this Plan and are seeking comments on the previous version, which was completed and sent to you in 2005.

We intend to address these comments prior to the normal review period, which occurs in the second quarter of 2009. This will facilitate preparation of the final draft of the UWMP and insure that any issues have been resolved to the satisfaction of both our organizations. Please submit your comments by September 1, 2008 so that we have adequate time to address your concerns.

If necessary we are available for a meeting to discuss these concerns or to provide clarification on the contents of the Plan.

If you do not have a copy of the 2005 Hermosa-Redondo District UWMP we would be happy to provide one to you. Please send any comments or questions to my attention:

Thomas Salzano
